2. Visitor Portal - Main

LGETN R&D
Eunbi Yoon

- When you have visitor, you can use this portal to request visitor and get approval from security admin.
- Regarding to company rules, even you get approval in here, when visitors move their locations visitor PIC should be with visitors all the time.
- The main page is operating like chatbot so if you want to move to your request fast please use quick menu located on the top of all web pages.
- If you want to go back to main page click the security center

The screenshot shows a web browser window titled "Quick Menu". The address bar indicates the URL is "Not secure | 10.225.2.86/security/visitor/". The top navigation bar includes links for "Visitor Center", "Security Center", "Visitor Request", "My Approval", and "Visitor List". On the right, there is a user session info "Admin | Eunbi Yoon (R&D)" and a "Logout" button. The main content area features a large white box with a red border containing a chatbot conversation:

Hello, I'm visitor registration chatbot, your virtual assistant.
What can I do to assist you about visitor registration?
Please Choose One of Below Options

1. Visitor Request → Users Request Visiting Non-LGETN Member

2. My Approval → Users Check their Visitor Request Approval. All Users need Security Admin Approval about their requests

3. Visitor List → When Visitor come in and out Security Gate, Security Admin will check-in and check-out

At the bottom of the page, a footer bar contains the text "Power By LGETN R&D Eunbi Yoon eunbi1.yoon@lge.com | Support By LGETN SHEE Joshua DeRosa joshua1.derosa@lge.com".

2. Visitor Portal - Visitor Request

- All blank is required to fill, except remark section. Each blank example shows as placeholder so please refer to those.
- You can register several visitor in one request and please describe each blanks as much as detailed.
- If visitors bring laptop, they should download LGETN security program in the security building before access to the building.
- If you remained your contact number, then security will try to call you when the visitor arrived in security building.

The screenshot shows a web-based visitor request form titled "Visitor Request". The form includes fields for Visitor's Name (John Smith), Visitor's Company (Pantos), Visit Date (Select a date range), Visit Purpose (Site Visit, Corporate and Support Project or Task, Negotiate Terms or Contract, and Etc.), Bring Laptop Onsite (Yes (Visitor Laptop Checked in Security Building)), Visitor Arrived Contact Number (931 111 1111), and a Remark field containing the placeholder text "Please give me phone call when visitor arrived to the security gate." A red box highlights the Remark field. A large black arrow points from the Remark field in the first screenshot down to the Remark field in the second screenshot, which shows the same placeholder text.

Visitor Request

Security Policy of Visitor
* Visitor wears PPE and safety shoes in the factory and they should provide from visitor requester's team.
* Visitor laptop should get permission at the security building and this request checked "Yes" in bring laptop onsite.

Approval lines : Your Team Leader, Security Manager, Security Team Leader.
After you request, email will be sent in parallel to the person in the approval line.

Visitor's Name	John Smith
Visitor's Company	Pantos
Visit Date	Select a date range
Visit Purpose	Site Visit, Corporate and Support Project or Task, Negotiate Terms or Contract, and Etc.
Bring Laptop Onsite	Yes (Visitor Laptop Checked in Security Building)
Visitor Arrived Contact Number	931 111 1111
Remark	Please give me phone call when visitor arrived to the security gate.

Example : Placeholder

3. Parking Portal - Violator data registered PIC

- This function is only available from Admin or manager account.
- Please access to below website to go to admin dashboard <http://10.225.2.86/admin>.

1. Click violator data

The screenshot shows the Django admin interface with the 'Violator data' section highlighted. The sidebar on the left includes 'Groups', 'Delivery Data', 'Employee of month data', 'Violator data', 'Reinvent', 'Truck Tracking Data', 'Teams', 'Users', and 'Approval Status'. The main area shows 'Recent actions' for 'SHEE' and 'eunbi.yoon'. The 'Violator data' section has three entries: 'Car plate' (377GHD), 'Parking at' (eunbi.yoon), and 'Violate count' (2). A black arrow points from the 'Violator data' link in the sidebar to the 'Violator data' section in the main content area.

2. Click data for detailed review

The screenshot shows the 'Violator data' list page. It displays three entries: 'Car plate' (377GHD) with 'Parking at' (eunbi.yoon) and 'Violate count' (2); 'Car plate' (123ABCD) with 'Parking at' (eunbi.yoon) and 'Violate count' (1); and 'Car plate' (377GHD) with 'Parking at' (eunbi.yoon) and 'Violate count' (1). A black arrow points from the '3 violator datas' link in the sidebar to the 'Violator data' list page.

3. Check "Register by" Section

The screenshot shows the 'Violator data' edit page for an object ID 3. It includes fields for 'Car plate' (377GHD), 'Parking lot' (Visitor), 'Violate count' (2), and 'Register by' (eunbi.yoon). A black arrow points from the 'Register by' dropdown in the edit form to the 'User' section in the sidebar.

4. Detailed User Information

The screenshot shows the 'User' list page. It displays two users: 'SHEE' (First name: Joshua, Last name: Derosa, Username: joshua1.derosa, Email: joshua1.derosa@lge.com, Myday credit: 1, Superuser status: red dot) and 'eunbi.yoon' (First name: Eunbi, Last name: Yoon, Username: eunbi1.yoon, Email: eunbi1.yoon@lge.com, Myday credit: 1, Superuser status: green dot). A black arrow points from the 'Find matching username with "Register by"' text to the search bar. Another black arrow points from the 'Click User' text to the 'eunbi.yoon' user entry.

3. Parking Portal – Employee Of Month Register

- According to security policy, employee of month has authority to park in visitor's parking lot in particularly section displayed parking sign as "Employee of Month".
- Every month, security manager will register employee of month list because manager and admin authority can access this page but user cannot access this page.

Admin, Manager View

Error: You didn't enter anything. Please type employee name and duration date.

3. Parking Portal – Employee of month data registered PIC

- This function is only available from Admin or manager account.
- Please access to below website to go to admin dashboard <http://10.225.2.86/admin>.

1. Click violator data

The screenshot shows the Django admin interface with the URL <http://10.225.2.86/admin/>. The left sidebar has a 'Employee of month data' link under the 'Parking' category. The main content area shows a table with columns: Employee name, Register at, Start date, and End date. There are four entries: Michael Gilland (Register at: R&D, Start date: 2023-09-29, End date: 2023-11-03), Monica Yoon (Register at: R&D, Start date: 2023-09-29, End date: 2023-11-03), and Mary Rose (Register at: R&D, Start date: 2023-09-29, End date: 2023-11-03). A black arrow points from the 'Employee of month data' link in the sidebar to the first entry in the table.

2. Click data for detailed review

The screenshot shows the 'Employee of month data' details page with the URL <http://10.225.2.86/admin/parking/employeemonthdata/>. It displays the same table as the previous screen. A specific row for Michael Gilland is selected, indicated by a red box around the 'Employee name' column. A black arrow points from the 'Employee name' field in the table to the 'Employee name' field in the 'Employee of month data' details page.

3. Check "Register by" Section

The screenshot shows the 'Employee of month data' edit page with the URL <http://10.225.2.86/admin/parking/employeemonthdata/1/change/>. The form includes fields for Employee name (Michael Gilland), Start date (2023-09-29), End date (2023-11-03), and Register by (eunbi.yoon). Below the form are several action buttons: Save, Delete, Save and add another, Save and continue editing, and History. A black arrow points from the 'Register by' dropdown in the form to the 'User' section in the sidebar.

4. Detailed User Information

The screenshot shows the 'Users' list page with the URL <http://10.225.2.86/admin/user/customuser/>. It lists two users: Joshua Derosa (username: joshua1.derosa) and Eunbi Yoon (username: eunbi.yoon). A red box highlights the 'Register by' column for both users. A black arrow points from the 'Register by' column to the 'User' section in the sidebar. Another black arrow points from the 'User' section in the sidebar to the 'User' section in the 'Find matching username with "Register by"' text.

5. Delivery Portal - Main

LGETN R&D
Eunbi Yoon

- When package arrived in the security building, security admin add new package on the database.
- If package has no information in the box, then admin can make QR code and attach but this is optional.

Admin, Manager View

This screenshot shows the Admin, Manager View of the Delivery Portal. At the top, there's a navigation bar with tabs for Delivery Center, Security Center, Search Package, Package Checkout, Add New Package, and Generate QR Code. The current tab is 'Delivery Center'. Below the navigation is a 'Quick Menu' with a 'Logout' link. The main area features a large image of a storage facility with shelving units. Overlaid on this image is a white chatbot interface. The chatbot says: "Hello, I'm delivery chatbot, your virtual assistant." It asks, "What can I do to assist you about delivery package?" and prompts the user to "Please choose one of options below." A box highlights the 'Search Your Package' and 'Checkout Your Package' buttons. The URL in the browser is 'Not secure : 10.225.2.86/security/delivery/'.

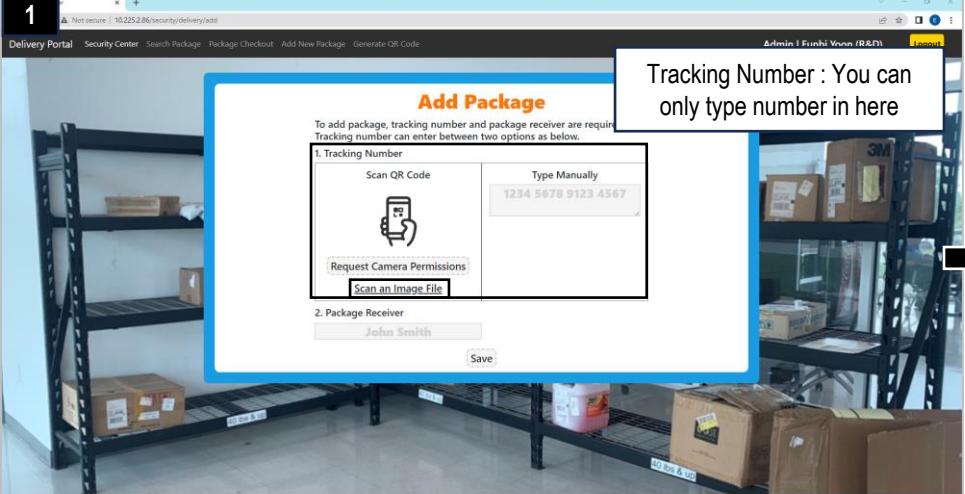

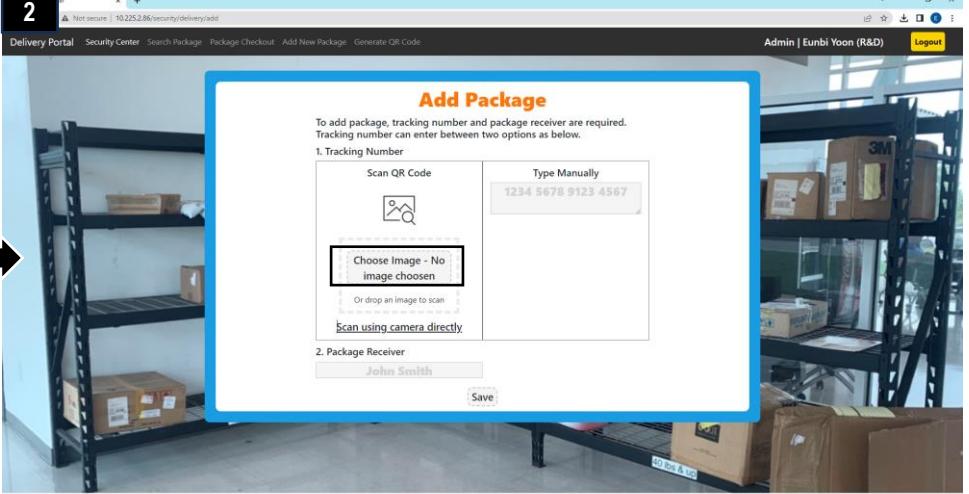

User View

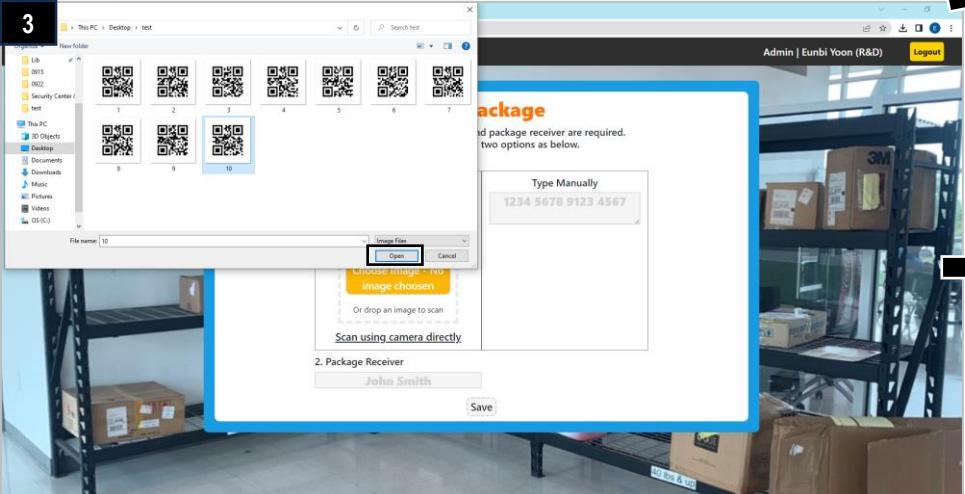

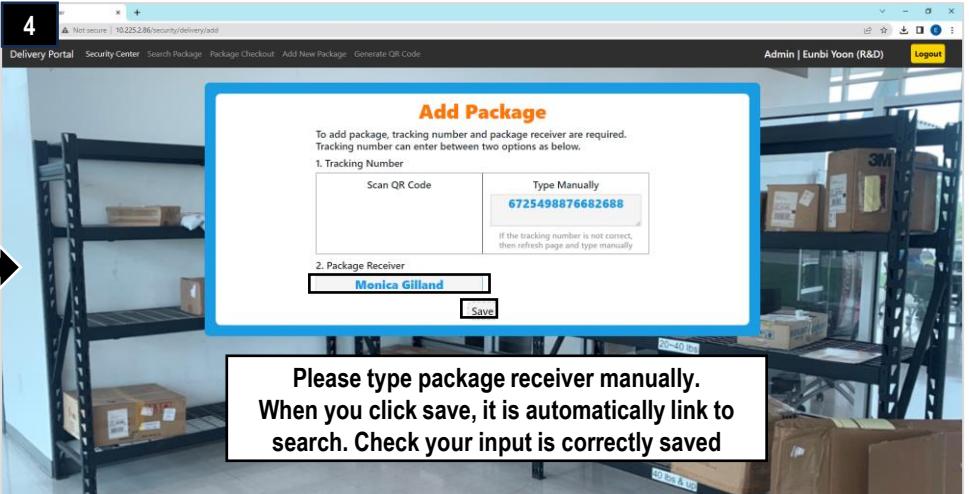

This screenshot shows the User View of the Delivery Portal. The layout is similar to the Admin view, with a 'Delivery Center' tab selected in the navigation bar. The 'Quick Menu' includes a 'Logout' link. The main area shows a storage facility with shelving units. A white chatbot interface is overlaid, identical to the Admin view: "Hello, I'm delivery chatbot, your virtual assistant.", "What can I do to assist you about delivery package?", and "Please choose one of options below.". A box highlights the 'Search Your Package' and 'Checkout Your Package' buttons. The URL in the browser is 'Not secure : 10.225.2.86/security/delivery/'. A line from the text 'This is matching' points to the chatbot message in both screenshots.

5. Delivery Portal - Add Package(1/2)

- To add package, need tracking number and receiver. Tracking number can enter 1) Upload QR or Barcode File 2) Type manually.
- This is for 1) Upload QR Image upload tutorial. After tracking number is filed, there is only one option for receiver, receiver should be entered manually,

Tracking Number – QR Image Upload

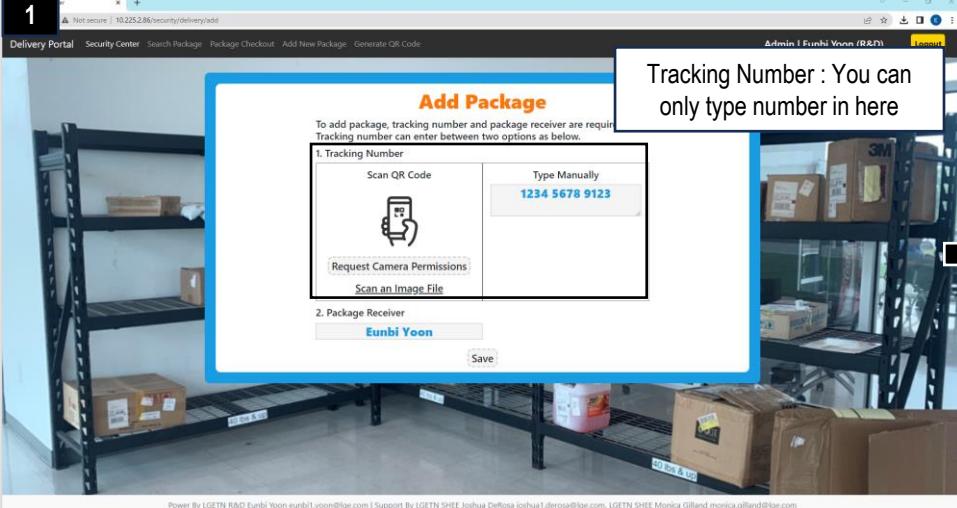

1  **2** 

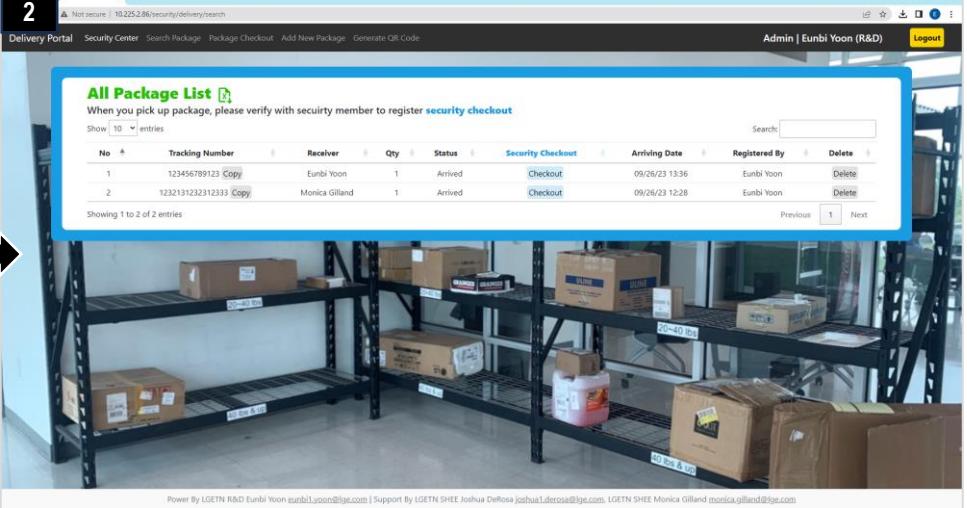

3  **4** 

5. Delivery Portal - Add Package(2/2)

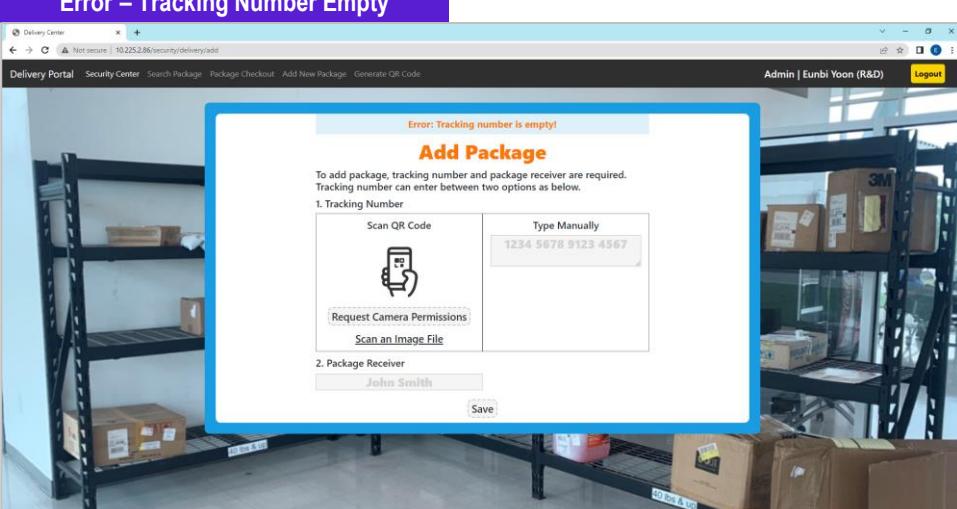

- This is for 2) Type manually upload tutorial. After tracking number is filed, there is only one option for receiver, receiver should be entered manually.
- If you did not put receiver, it will give you an error as below and not able to save. Please type "Unknown", if there is no receiver information in package.

Tracking Number – Type Manually

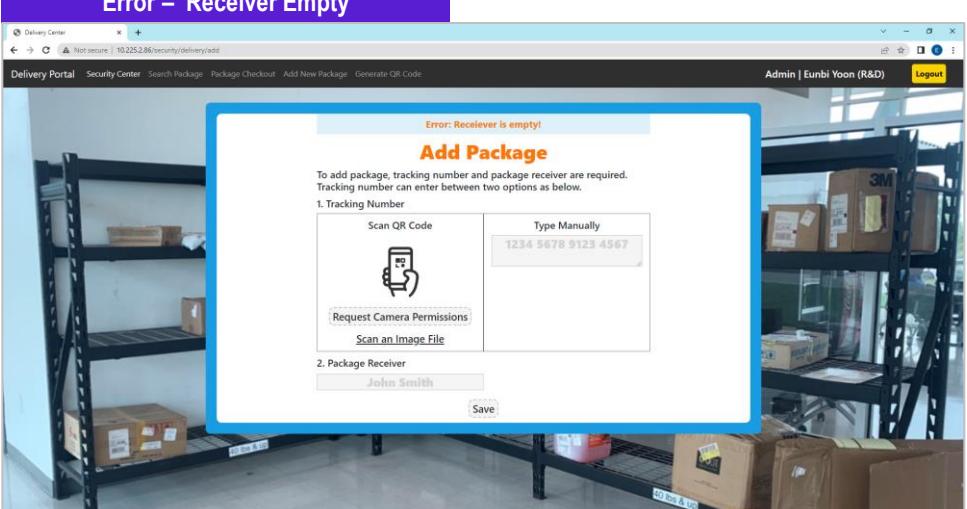

1  Tracking Number : You can only type number in here

2 

Error – Tracking Number Empty

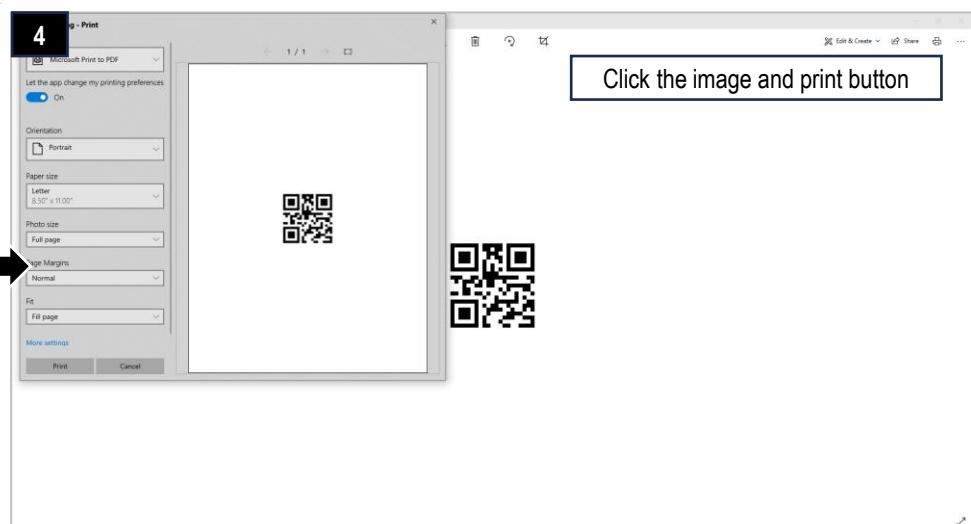

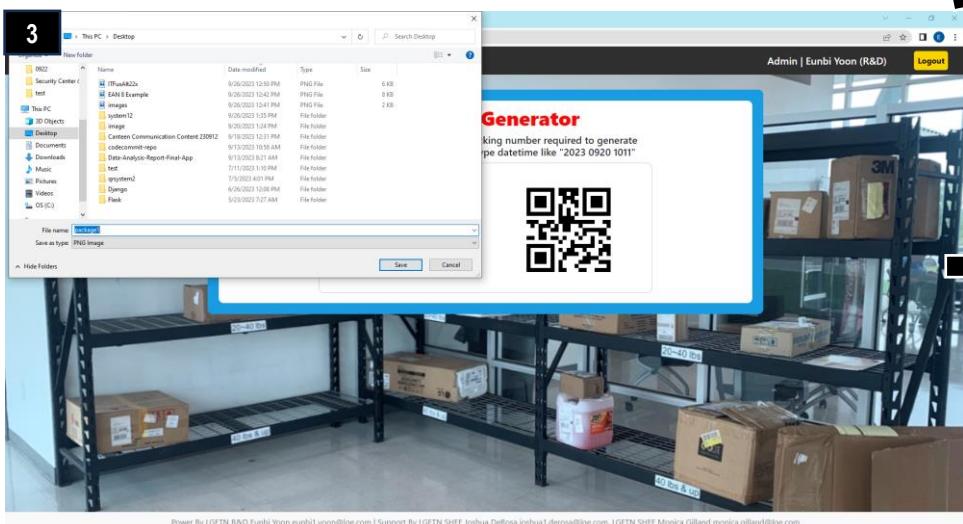

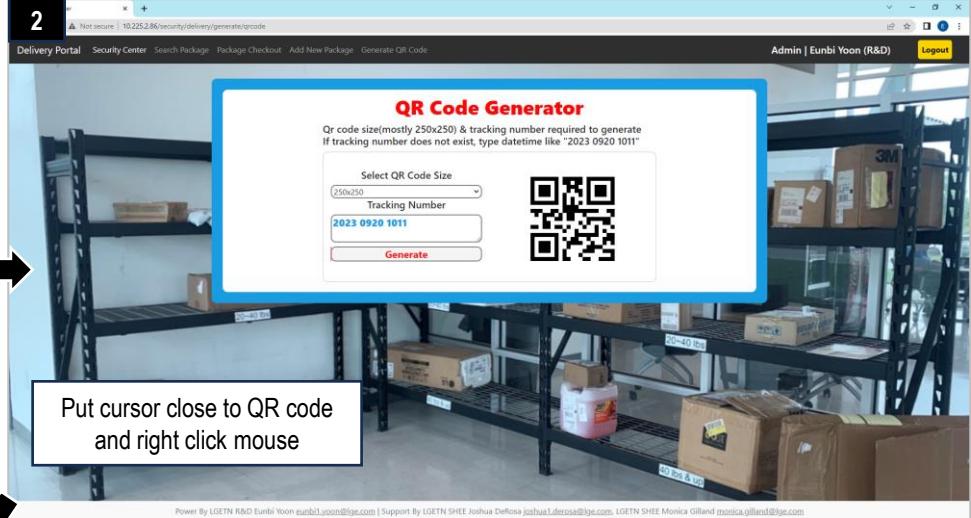

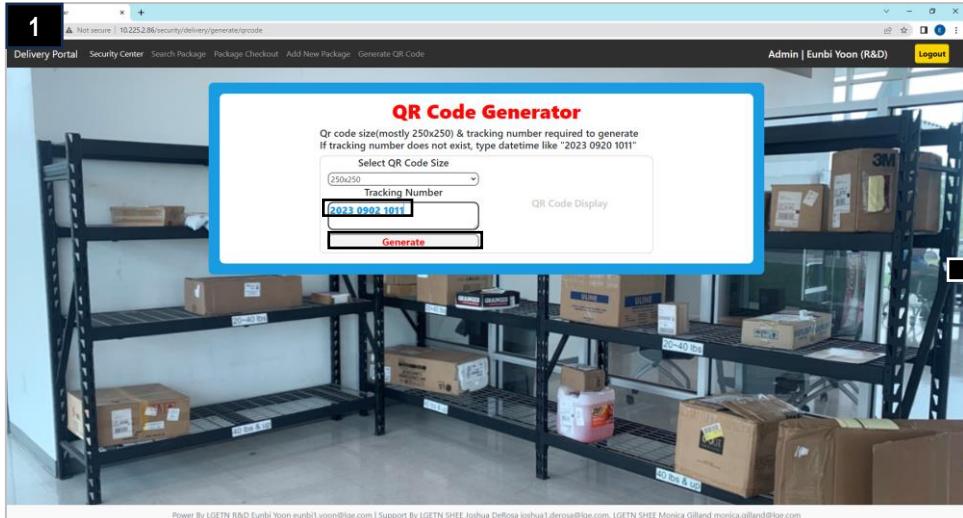

Error – Receiver Empty

5. Delivery Portal - Generate QR Code

- If the package has no information on it, you can generate QR code and save QR code to print out. After QR code is generated, right mouse click to save image.
- For tracking number, please type today date and time such as "2023 0920 1011"

5. Delivery Portal - Search View Depends on Account

LGETN R&D
Eunbi Yoon

- “Security Checkout” is in charge of security admin check not user or receiver.
- Therefore user account cannot see checkout and delete button in search page and admin or manager has both access in this page.

Admin, Manager View

The screenshot shows a web browser window titled "Search Package" with the URL "Not secure | 10.255.2.86/security/delivery/search". The title bar says "Delivery Portal Security Center Search Package Package Checkout Add New Package Generate QR Code". The top right shows "Admin | Eunbi Yoon (R&D)" and a "Logout" button. A modal window titled "All Package List" displays a table of packages. The "Security Checkout" column contains "Checkout" and "Delete" buttons. The "Arriving Date" column also contains "Delete" buttons. The table data is:

Tracking Number	Receiver	Qty	Security Checkout	Arriving Date	Delete
1232131232312333	Monica Gilland	1	Copy Checkout	09/26/23 12:28	Delete
123456789123	Michael Jackson	1	Copy Checkout	09/26/23 13:36	Delete
134567811112	Votina Littlejohn	1	Copy Checkout	09/26/23 15:12	Delete

Showing 1 to 3 of 3 entries

The background shows a photograph of a warehouse with black shelving units containing various boxes and containers.

User View

The screenshot shows a web browser window titled "Search Package" with the URL "Not secure | 10.255.2.86/security/delivery/search". The title bar says "Delivery Portal Security Center Search Package Package Checkout". The top right shows "User | Joshua DeRosa (SHEE)" and a "Logout" button. A modal window titled "All Package List" displays a table of packages. The "Security Checkout" column only contains "Copy" buttons. The "Arriving Date" column only contains "Copy" buttons. The table data is:

Tracking Number	Receiver	Qty	Security Checkout	Arriving Date
1232131232312333	Monica Gilland	1	Copy	09/26/23 15:11
123456789123	Michael Jackson	1	Copy	09/26/23 13:36
134567811112	Votina Littlejohn	1	Copy	09/26/23 15:12

Showing 1 to 3 of 3 entries

The background shows a photograph of a warehouse with black shelving units containing various boxes and containers.

5. Delivery Portal - Search Your Package

LGETN R&D
Eunbi Yoon

- These search, copy text, checkout, delete, excel download functions are available in search view. (Checkout function explain detailed in next page)
- If user are not going to security building, user can check your package is arrived in security building or not.

1. Copy Text of Tracking number

A screenshot of a web browser displaying a delivery portal. The main content area shows a grid of packages on shelving units. Overlaid on this is a modal window titled "All Package List". Inside the modal, there is a table with columns for Tracking Number, Receiver, Qty, Security Checkout, and Arriving Date. Several rows of data are listed. A tooltip box with the text "Click this button and it changes to 'Copied!' and pasted to check." points to a "Copy" button in the "Security Checkout" column of the first row. The tracking number in that row is 23234234234234234234.

2. Search

A screenshot of a web browser displaying a delivery portal. The main content area shows a grid of packages on shelving units. Overlaid on this is a modal window titled "All Package List". Inside the modal, there is a table with columns for Tracking Number, Receiver, Qty, Security Checkout, and Arriving Date. A search bar at the top of the modal contains the text "Search: Michael". A tooltip box with the text "Search keyword through all columns, you can type receiver name or arrived date." points to the search bar. The tracking number in the first row is 123456789123.

3. Download Data as excel file

A screenshot of a web browser displaying a delivery portal. The main content area shows a grid of packages on shelving units. Overlaid on this is a modal window titled "All Package List". Inside the modal, there is a table with columns for Tracking Number, Receiver, Qty, Security Checkout, and Arriving Date. A tooltip box with the text "Download as Excel" points to a small icon in the top right corner of the modal. The tracking number in the first row is 123456789123.

4. Delete Delivery Data

A screenshot of a web browser displaying a delivery portal. The main content area shows a grid of packages on shelving units. Overlaid on this is a modal window titled "All Package List". Inside the modal, there is a table with columns for Tracking Number, Receiver, Qty, Security Checkout, and Arriving Date. A tooltip box with the text "Delete" points to a "Delete" button in the "Security Checkout" column of the first row. The tracking number in that row is 123456789123.

4. Truck Portal - Security Check Out

LGETN R&D
Eunbi Yoon

- When you pick up your package, user need security checkout from security admin, not user. To checkout, tracking number is required.
- There is two method to check out your package, access through search or quick menu package checkout. Search view is more easier.

1. "Search" Page : Click Checkout Button

1 Not secure | 10.225.2.86/security/delivery/search Admin | Eunbi Yoon (R&D) Logout

Delivery Portal Security Center Search Package Package Checkout Add New Package Generate QR Code

All Package List When you pick up package, please verify with security member to register **security checkout**

Tracking Number	Receiver	Qty	Security Checkout	Arriving Date	Delete
123213123212333	Monica Gilland	1	09/26/23 15:11	09/26/23 12:28	Delete
134567811112	Votina Littlejohn	1	Checkout	09/26/23 15:12	Delete
